

ROSHIELD

CONTROL

Material Safety Data Sheet **Roshield Rodent Proofing Paste**

1. Identification

Labelname : Roshield

Application : Proofing Paste

Producer :

Fort Products Limited

16 Euro Business Park New Road Newhaven

East Sussex

BN9 0DQ

United Kingdom 01273 911400

2. Composition information on ingredients

Composition : Proofing paste consists of vegetable oils, fillers and polystyrene beads

Toxicity : N.a.

Carcinogens : N.a.

Hazard classification : N.a.

3. Risks

None

4. First aid measures

General : When in doubt or if symptoms persist, call a doctor

Inhalation : No first aid required

Eye contact: No first aid required

Skin contact : No first aid required

Ingestion : No first aid required

5. Accidental release measures

None

Do not allow to enter drains or surface waters.

6. Handling and storage

Handling : Close properly after usage. Keep the product cool and dry.

Storage : Store the product at a temperature between 0°C and 20°C.

7. Fire-Fighting Measures

N.a.

8. Exposure controls/personal protection

Technical safety measures : N.a.

Exposure limits : N.a.

Personal protection : N.a.

Protection of the respiratory system : N.a.

Protection of the hands : N.a.

Protection of the eyes: N.a.

Protection of the skin : N.a.

9. Stability and reactivity

Storage and handling conditions (see section 6) stable for 2 years

Opened product dries within a few hours

Polymerisation : None

Corrosion : None

Avoid situations: None

10. Physical and chemical properties

Appearance : Paste

Color : Available in colors grey, white and black

Temperature of ignition : 300°C

Density (at 20 °C) : Not determined

Viscosity (at 20 °C) : Not available (high thixotropic product)

Vapor pressure : Not determined

Boiling point : Not determined

Lower explosion limit : Not determined

Melting point : Not determined

pH level : Not determined

Solubility in water : Not soluble

11. Ecological information

The product is not toxic to water and soil organisms.

12. Toxicological information

The product does not contain pesticides and therefore does not require classification regarding health risks.

Not to be used for consumption.

13. Disposal consideration

Wastes and empty containers should be disposed as non pesticide waste.

14. Regulatory information

Labelling requirements : N.a.

Symbols : N.a.

Product contains : N.a.

S-phrases : N.a.

R-phrases : N.a.

15. Transport information

ADR/RID : N.a.

IMDG : N.a.

ICAO : N.a.

16. Additional information

The information in this material safety data sheet is based on our present knowledge and is in compliance with national laws and the laws of the EU. Without prior written instructions the product should not be used for other purpose than described in Section 1.

The information in this MSDS is meant as a description of the safety requirements for this product. It should not be construed as a warranty of the properties of the product.

It is the responsibility of the user to take the necessary measures with regard to comply with the requirements of local law and regulations.
